AI Engineer &
Full-Stack Developer

01 - PROFILE

Hello, I am Yanes! Full-Stack Developer, AI Integration Engineer and European Project Coordinator.

I combine advanced technical expertise and solid experience in educational engineering to design innovative, scalable and user-centred digital solutions.

02 - KEY ACHIEVEMENT

I recently designed, developed and deployed in production [Find My Work AI ↗](#), a complete job-search SaaS platform:

MODERN ARCHITECTURE

React 19 (Vite, Lucide React) & FastAPI (Python 3.11+, modular architecture).

DATA COLLECTION & SCRAPING

Multi-source collection (LinkedIn, Indeed, France Travail) with Redis caching to bypass anti-bot restrictions.

AI ORCHESTRATION & MULTI-LLMS

Routing of 4 LLMs (Groq, Gemini, Ollama, xAI/Grok) with fallbacks, rate-limiting and cost optimisation.

PRODUCTION & INTERNATIONALISATION

CI/CD (Netlify/Railway), enhanced security, 7 languages including Arabic RTL.

Professional
experience

03 - CAREER

March 2020
-
Present

Full-Stack Developer & European Project Coordinator

FRANCE CULTURE CONNECTION · FREELANCE / PROJECT MANAGEMENT

A dual role combining the development of complex cloud applications (SaaS, E-commerce) and the management of European educational innovation projects (Erasmus+ KA2) with high added value.

TECH ENGINEERING, GENERATIVE AI & SAAS :

- FIND MY WORK AI : Design and full production deployment of the job-search SaaS (React 19 / FastAPI / Redis).
- AI ORCHESTRATION : Integration and multi-LLM routing (Groq, Gemini, Ollama, Grok) with automatic fallbacks and rate limiting.
- DATA ARCHITECTURE : Complex multi-source scraping (JobSpy, LinkedIn, Indeed) with proxy and anti-bot management.
- E-COMMERCE : Creation of Stripe payment funnels and SEO-optimised platforms.

EUROPEAN KA2 PROJECT MANAGEMENT (TOTAL BUDGET: €240K) :

- ECO AI & SMART EDU AI : Training teaching staff in AI and development of European educational modules.
- STRONG FUTURE WITH DIGITAL SKILLS : Intensive web development workshops and deployment of an interactive Mölkky game.
- HIDDEN GENIUSES : Design of web resources and training for employability in rural areas.
